

Health & Safety, Environment and Quality Policy

Practically Green Ltd is a professional services firm that helps customers improve the environmental performance of their operations.

At Practically Green we care about our customers, our environment and the people we work with. We want to be a valued supplier, providing smarter, innovative and sustainable solutions to help customers and stakeholders.

Our core business commitments are to;

- Deliver a consistent and high-quality customer service for clients
- Take responsibility for protecting the environment by minimising the impacts of our operations
- Identify and manage hazards to remove or mitigate risks
- Deliver continual improvement in the business's health & safety, environment and quality performance

Managing Director, July 2019

To achieve these commitments, we will;

- Operate and maintain an Integrated HSEQ Management System with the following scope

THE DELIVERY OF ENVIRONMENTAL, SUSTAINABILITY AND LOW CARBON CONSULTANCY SERVICES.

- Establish procedures and processes to support and inform operations
- Monitor operations and performance, working to continually improve the business performance
- Meet all relevant statutory and compliance requirements
- Recognise hazards and environmental impacts and effectively address these
- Establish and achieve HSEQ objectives and targets
- Maintain our ISO 9001, 14001 and 45001 accreditations
